Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative indicated applicant's intention to file a 37 CFR 1.132 affidavit or declaration to present evidence and to demonstrate support for applicant's previously submitted assertion that the invention has attained a level of commercial success indicative of nonobviousness. The following discussion only generally touched on the type of information which might be included in affidavit and declarations submitted under 37 1.132. In this regard, applicant's attention was directed to any appropriate sections of the USPTO M.P.E.P. which might provide applicant with guidance in filing a response under 37 CFR 1.132. Otherwise only the general scope of the claimed invention was discussed .
